

VPB13A5-10B/4Z

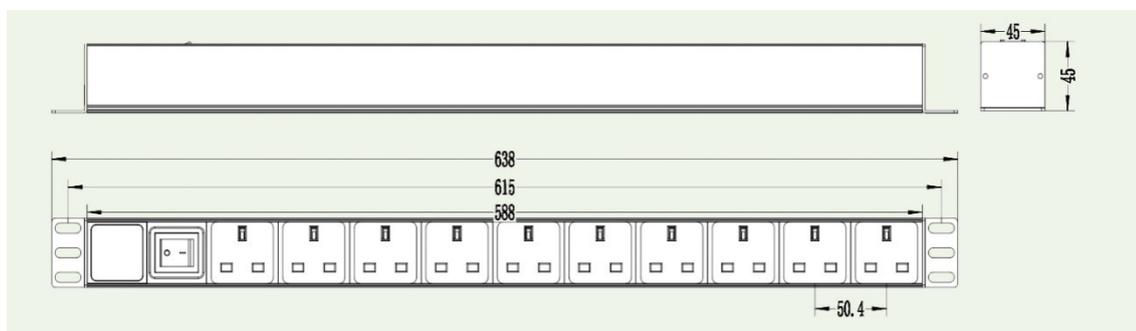

Description

VPB series PDU is the device power access solution provided by VERICOM and used to power IT equipment. VPB13A5-10B/4Z features UK plug input 13A250VAC, 10 Port UK outlets protected by a switch. It is vertical installation and black.

Features & Benefits

- **Convenient Installation**
Rotating fixed bracket, suitable for horizontal, vertical and other installation angles
- **Thicker Cable**
Less resistance, stable current, stable conduction, safe use of electricity
- **Comprehensive Protection**
The main switch is equipped with a protective dust cover that prevents accidental shutoffs
- **Sturdy and Durable**
Made from high ductile strength material that resists damage
- **Grounding Design**
Reasonable grounding design prevents accidental electric shock

Installation Dimensions

VPB13A5-10B/4Z

Product Specifications

Electrical	
Input Voltage	250VAC
Input Current	13A
Input Frequency	50/60 Hz
Input Plug	13A UK Type
Output Voltage	250VAC
Output Current	13A
Maximum Output Current	13A
Output Receptacles	(10) UK Type
Physical	
Dimensions	638x45x45 mm
Installation	19 Inch
Weight	1000 g
Shipping Dimensions	660x94x56 mm
Shipping Weight	1200 g
Color	Black
Power Cord Length	2.0 m (Factory Standard)
Environmental	
Maximum Elevation Above MSL (Operating/Storage)	0 to 3,000 m/ 0 to 15,000m
Humidity (Operating/Storage)	5 - 95%RH/ 5-95, Non-condensing
Temperature (Operating/Storage)	0 - 45°C/ -20 to 70°C
Certifications	
Certifications	LVD.EMC...
