

## VPB16A6-10D/4Z

## Description

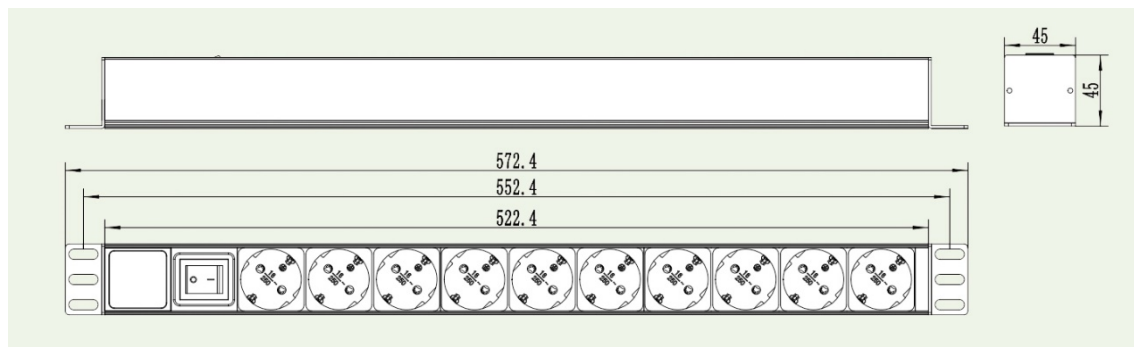

VPB series PDU is the device power access solution provided by VERICOM and used to power IT equipment.

VPB16A6-10D/4Z features German plug input 16A250VAC, 10 Port German outlets protected by a switch. It is vertical installation and black.

## Features &amp; Benefits

- **Convenient Installation**  
Rotating fixed bracket, suitable for horizontal, vertical and other installation angles
- **Thicker Cable**  
Less resistance, stable current, stable conduction, safe use of electricity
- **Comprehensive Protection**  
The main switch is equipped with a protective dust cover that prevents accidental shutoffs
- **Sturdy and Durable**  
Made from high ductile strength material that resists damage
- **Grounding Design**  
Reasonable grounding design prevents accidental electric shock

## Installation Dimensions

VPB16A6-10D/4Z

## Product Specifications

Electrical	
Input Voltage	250VAC
Input Current	16A
Input Frequency	50/60 Hz
Input Plug	16A German Type
Output Voltage	250VAC
Output Current	16A
Maximum Output Current	16A
Output Receptacles	(10) German Type
Physical	
Dimensions	572.4x45x45 mm
Installation	19 Inch
Weight	1000 g
Shipping Dimensions	585x94x56 mm
Shipping Weight	1200 g
Color	Black
Power Cord Length	2.0 m (Factory Standard)
Environmental	
Maximum Elevation Above MSL (Operating/Storage)	0 to 3,000 m/ 0 to 15,000m
Humidity (Operating/Storage)	5 - 95%RH/ 5-95, Non-condensing
Temperature (Operating/Storage)	0 - 45°C/ -20 to 70°C
Certifications	
Certifications	LVD.EMC...
