

Box Type Cleaner

Description

This cleaner is applicable for SC, FC, ST, D4, LC, DIN connectors in the data centers, optical face plates, fields or labs. It can clean the dust, oil, and other pieces without ethyl alcohol while not damaging the optical fiber ends. In addition, the inner cleaning cartridge is replaceable to save the cost if one reel is run out.

Features & Benefits

- Fast and convenient operation
- Suitable for SC/FC/ST/LC Connectors
- Replaceable cleaning cartridge for cost-saving and long-term use
- Over 500 cleans per reel
